Making Spanish Cream. Spanish Cream as a dessert is always

welcomed. Ye how often our readers

query: "Why does my Spanish Gream to seldom have the three distinct layers

-a layer of custard on top, below this a

layer of jelly, and a layer of fluffy egg-white mixture on the bottom?"

Spanish Cream is a gelatine dessert,

and for this reason every care must be

taken in blending its ingredients before the mixture is allowed to stiffen. Even

before starting to prepare the dessert, a suitable large meld or the required num-ber of individual molds should be select-ed, filled with cold water, and placed in a cool spot until ready for use. Then

prepare the dessert mixture as follows Measure one level tablespoonful of gran-ulated gelatine and soak it in one-fourth cupful of cold water for five minutes.
